

ALSO IN OUR ELECTRICALLY HEATED RANGE

The MAC Elektra

The MAC Elektra is a conventional 18kw electrically heated machine. The machine is entirely made from stainless steel and it is designed to be installed in food factories and sensitive environments.

THE GREEN ALTERNATIVE

STANDARD FEATURES

- Full stainless steel chassis and cover
- Stainless steel boiler system
- 3 x 6kw heating elements
- 50°C heat
- 70ltr boiler capacity
- Automatic stop/start system
- High temperature Professional Interpump
- Thermostat control
- Motor overload protection
- Low pressure chemical system
- Internal chemical tank
- Pressure gauge and bypass valve
- 24v low tensions safety controls

TECHNICAL INFORMATION		MAC61
Water Flow		11lt per minute
Pressure		140bar, 2030psi
Motor Specification		4hp, 1450rpm
Chemical		Low Pressure
Shutdown System		Auto Stop/Start, Leak Detection
Temperature		0-80°C
Power		64amp, 415v
Chassis & Cover		Stainless Steel

THE MAC PERMAHOT RANGE

ELECTRICALLY HEATED PRESSURE WASHERS

MAC PERMAHOT LASER & STATIC

The Permahot range consists of two electrically heated hot pressure washers, a mobile and static version.

The award winning Permahot range utilises a patented 3 x 4kw hollow element heating system, which is completely unique to the industry.

It is now possible to produce constant heat on a 32amp, 415v supply at a constant run temperature of 80-90°C.

This range is perfect for food environments and all conditions where diesel, fumes and large water consumption are major problems.

- 90°C Heat
- Instant Hot Water
- No Diesel Fumes
- Low Water Usage

PERMAHOT STATIC

PERMAHOT LASER

FEATURES & BENEFITS OF THE MAC PERMAHOT RANGE

- 90°C heat
- Instant hot water
- No diesel fumes
- Low water usage
- Easy to use
- Simple 24v safety controls
- Mobile or static options available
- Stainless steel for food applications
- 12kw low cost heating system
- Colour coded gun and lance system
- Foaming options
- Versatile use
- Stainless steel manual hose reel for the Permahot Laser
- No competition on the market

Winner of the 'Pressure Washer Innovation Award' at the Cleaning Show 2013.

POWER AND WATER REQUIREMENTS

- A 32amp, 415v power supply with a 4 pin plug
- A minimum 2 bar water supply, capable of 10lt per minute

THE MAC PERMAHOT RANGE

ELECTRICALLY HEATED PRESSURE WASHERS

MAC PERMAHOT STATIC

PERMAHOT STATIC	
MAC63	
Water Flow	6lt per minute
Pressure	150bar, 2200psi
Motor Specification	5.5hp, 1450rpm
Shutdown System	Instant Stop
Working Temperature	80°C Constant
Max. Temperature	90°C Constant
Power	415v, 32amps
Weight	100kg
Dimensions (h x w x d)	51 x 96 x 59cm

HIGH QUALITY INTERPUMP

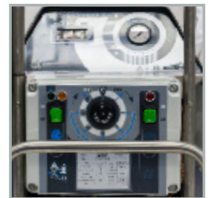

PATENTED HOLLOW ELEMENT SYSTEM

MAC PERMAHOT LASER

STAINLESS STEEL MANUAL HOSE REEL

PERMAHOT LASER	
MAC64	
Water Flow	6lt per minute
Pressure	150bar, 2200psi
Motor Specification	5.5hp, 1450rpm
Shutdown System	Instant Stop
Working Temperature	80°C Constant
Max. Temperature	90°C Constant
Power	415v, 32amps
Weight	100kg
Dimensions (h x w x d)	97 x 60 x 106cm

24V SAFETY CONTROLS

PATENTED HOLLOW ELEMENT SYSTEM

STANDARD FEATURES OF THE MAC PERMAHOT RANGE

- Maximum temperature 90°C constant
- Patented 3 x 4kw Hollow Element system
- Full stainless steel chassis and cover
- Professional Interpump with ceramic pistons
- Industrial 1450rpm low revving electric motor
- Instant stop system
- Stainless steel water tank
- Low water cut off switch
- Water softener system
- Bypass valve
- Pressure gauge
- Heater on/off switch
- Mains On & heating element lamps
- Heater controlled by thermostat
- 24v low tension safety controls
- Current thermal overload protection
- Stainless steel manual hose reel & stainless steel basket for accessories - Permahot Laser
- Including 15mt hose, 900mm quick release lance and heavy duty trigger
